Dear Sirs

We would like to inform you that your dispatch of MAGNA 303 GOLD was used successfully by us for repair of our "Casing of Caustic Transfer Pump" of Membrane plant.

We have tried to carry out above mentioned repair jobs through various electrodes available but were not successful. The same repair was carried out using MAGNA 303 GOLD electrodes successfully which resulted in decreasing the Down Time.

We are extremely happy with the quality and performance of above electrodes for critical applications and we are using above for same.

Yours truly,

Arshad Jamil  
Asst Manager (Mechanical)
